# ALFONSO TARALLO

**Innovate responsibly. Innovate for humans.**

## SwiftUI DEVELOPER

I'm a very curious lifelong learner and I love technology and how it can improve people's lives. My goal is to not only shape high-tech digital products, but especially craft amazing human-centered experiences.

## Education

### iOS and macOS Developer
2024-25

Apple Developer Academy @UNINA Federico II

Advanced learning experience simulating a real-world work environment. I was part of a team working on two live products used everyday, applying SCRUM methodologies, and successfully developed frontend, backend and administrative software for the badging system and a macOS self-assessment tool for students.

### iOS Developer
2023-24

Apple Developer Academy @UNINA Federico II

I worked on many different projects, with the role of App Developer, but collaborating in the phases of research, UX/UI design, and distribution as well, following the Challenge Based Learning process.

### Web Development Course
2023

Habeetat School @weBeetle, Angri (SA)

Full-stack development of websites and web applications. I developed frontend and backend of a web based task manager.

### Business University
2020-25

University "Parthenope" of Naples, Italy

Marketing and Management for International Enterprises. Inclined towards Research and Development for Innovation.

## Volunteering

### Mentor for App Development
2024-25

Apple Foundation Program @UNINA Federico II

I supported teams in app development and presentation skills, facilitating them and helping them empower autonomous learning.

### Community Manager
2023-24

Apple Developer Academy @UNINA Federico II

I supported the Alumni Program in community engagement, collaborating in the organization of networking events.

### Educator for youth members
2023

Sant'Antonio Abate (NA)

I am coaching teenagers, helping them build empathy, trust and emotional intelligence, giving them the ability to collaborate.

### After-school tutor
2020-25

Castellammare di Stabia (NA)

I tutored young people in tough life conditions. I was able to gain their trust and help them believe in their worth and succeed in school.
